

Lovely, Warm, Skilled Therapists Needed

TTC is a group of private practitioners working together as a multi-disciplinary team. We focus mainly on children and families but also work with adults. We currently include adult and child psychiatrists, psychologists, an adult therapist a family therapist and several child psychotherapists. We receive wide-ranging referrals, which include assessments, long-term work, short-term work, court assessments or mediation, etc. We often have the opportunity to carry out joint work with two therapists working with different members of the family or two clinicians together carrying out in-depth assessments. We have rooms in Manor Gardens, Holloway, N7 and Crystal Palace, SE19. Due to recent expansion we currently have several vacancies available.

At our North London Clinic, N7

2 Child Psychotherapists
1 Adult Therapist (qualification with couples also is a huge bonus)

Most of our work is in the evenings after school or work so we are looking for people who can be available between 4-8pm on Monday or Wednesday, or during the day on Saturdays. There may well also be some work during weekdays, particularly for the adult therapist.
