Please find a list of TAPO organisations above. If you are seeking a placement outside of Terapia's Therapeutic Services (Terapia School Services and The Bothy) then please contact one of our partner organisations above. Policies and procedures of the TAPO organisation must be followed by the trainee.

Terapia works closely with partner organisations to ensure a high-quality, professional and well managed therapeutic service is provided to all schools and organisations, and that the mental health and emotional wellbeing needs of each unique child and young person our trainees support are fully met.

N.B. Terapia does not pay for one-to-one Clinical Supervision for trainees who conduct their clinical placement with a TAPO. Whilst TAPO's are encouraged to contribute to a trainee's supervision cost, this is the decision of the TAPO and differs from service to service. It is up to a trainee to negotiate the potentiality of supervision contributions directly with the TAPO. Trainees in TAPOs are responsible for arranging to make payment for one-to-one supervision directly to their Clinical Supervisor.
